My pug mug is bad!

I sob.

I am not a wiz.

I am only six!

I zip to my mom.

We hug.

She says do not quit!

I will not quit!
I am not a wiz yet.
But I can do it!

Dip, dip, dip
Dot, dot, dot

Pop and Pug love it!

Building Knowledge

It is important to have a good mindset. A mindset is a belief or attitude we have about something. There are two types of mindsets you can have. A *fixed* mindset or a *growth* mindset.

A fixed mindset is thinking that no matter how hard you try, you can't get better at something. A growth mindset is thinking that you can get better at something with practice.

Someone with a fixed mindset might say things like "I can't do this" or "I quit". On the other hand, someone with a growth mindset will say "I can't do this yet!" or "I will keep trying!". We can choose what kind of mindset we have. If we choose to have a fixed mindset, we will always think we can't. If we

have a growth mindset, we will believe in ourselves and know that we can if we try!

Having a growth mindset can make us better students and better learners. It can help us when we play sports, do art projects, or help our family with chores. Having a growth mindset helps us face challenges with confidence!

What kind of mindset do you think you have most of the time?
